

RPO65

PoE ceiling speaker

Features

- Full-range coaxial ceiling speakers are fixed-impedance active ceiling speakers suitable for shops, conference rooms, hotels, cruise ships, and other places;
- Built-in power amplifier, digital signal processing function;
- The speakers can be installed in two ways: embedded installation and hoisting, realizing an optimized design for convenient installation on high and low floors;

Specifications

Power input	802.3af/802.3at/802.3bt compatible;	Peak output power (PAK)	60 watts
Audio transmission protocol	Dante	Installation opening size	246MM round hole
Bass unit	6.5-inch	Installation depth	197MM
Tweeter	1-inch	Box material	iron grille + iron engineering box
Frequency response	65Hz-20kHz, (±3dB)	Audio input port	RJ45
System impedance	8 Ohms	Product weight	3.3KG
SPL	89dB 1M/1W	Installation method	embedded and hanging installation
SPL	111 dB	Additional accessories	safety rope
RMS	30 watts
